## OBJECTIVE SUMMARY

---

Pharmacist turned full-stack developer with a strong lean towards back-end development and quality assurance. Significant experience with logic deduction within healthcare, troubleshooting, and algorithms. Attentive to seek the root cause of problems, and output results within intended deadlines. Specializes in Ruby/Ruby on Rails, JavaScript, and Docker. Looking for a position to immediately jump into problem-solving and debug code alongside a motivated, responsible team, while independent enough to learn and work expeditiously as well.

## SKILLS AND STRENGTHS

---

Languages: Ruby, Javascript, SQL, HTML, CSS, JSON  
Database: PostgreSQL, Firestore  
Library: Bootstrap, React, Redux

Frameworks: jQuery, Bootstrap, Sinatra, Rails  
Application: Docker, Jest, RSpec, Capybara, Git, Heroku

## PROJECTS

---

### [Luigi Luau Shop](#) | [Github Repo](#)

2021

A fictional specialty shop that showcases products and reviews of items with user authentication

- Met 7/7 objectives at all times on 1<sup>st</sup> submission; emphases on spec and integration tests, and RDBMS
- Tools used: HTML5, Ruby/Ruby on Rails, Postgres, RSpec & Capybara, BCrypt, Docker
- To navigate around the entire website, login with email "z@z.com" and password "z"

### [Student Progress Tracker](#) | [Github Repo](#)

2021

A web application designed to replace a school's internal Google Spreadsheet catalog of their students' test scores

- Created and implemented Chart.js to student's record, showcasing a multiple Y-axis chart with a regression line
- Tools used: HTML5, CSS, Ruby on Rails, Chart.js, Kaminari, Faker
- To navigate around the entire website, login with email "admin@example.com" and password "password"

### Credit Debt Tracker API | [Github Repo](#)

2021

A credit card debt tracker API that tracks credit card balance and returns an interest charge if a balance remains.

- An API built on Rails with secure token authentication; emphasis on detailed, easily understandable README documentation
- Tools used: Ruby/Ruby on Rails, Postman, Postgres, Devise, Lockbox, Docker

## EDUCATION

---

Web and Mobile Development Certificate: Ruby/Ruby on Rails, Epicodus (Portland, OR) Presently attending

- Immersive 6-month flipped classroom educational coding program on the fundamentals of full-stack development

Doctor of Pharmacy + Leadership Track, Pacific University, School of Pharmacy (Hillsboro, OR)

2020

- Dean's Excellence Award

Bachelor of Arts, Environmental Earth Science, University of California, Berkeley (Berkeley, CA)

2013

## EMPLOYMENT

---

Pharmacist COVID-19 Vaccination Support – Rite Aid

2021 – Present

- Established personal lean method on preparing 13 vials (78 vaccinations) under sterile preparation from vial to syringe within an hour before clinic

Pharmacist COVID-19 Vaccination Support – CVS

2021 – Present

- Led two pharmacists at a clinic, vaccinating 124 patients that was 17% quicker than scheduled. Administrator requested to lead their next round of clinic due to exceeding overall expectations and meeting 100% satisfaction.
